

We must not lose sight of who we are and what we do. Our job goes beyond filling out papers, showing properties, open houses and bringing a gift to the closing. We are privileged to work with people buying a home, selling a home or those planning to. We possess a great knowledge of our community and our customers and clients. We have our hands on the pulse of the real estate market. We are the heart of the market. We all work very hard to keep home ownership strong in our community and also at making a positive difference in people's lives.

This year, OAR is focusing on the many ways REALTORS® improve the Quality of Life in Oklahoma through a statewide public awareness campaign with five core principles: the ability to buy and sell a home, protecting personal property rights, creation of jobs, improving infrastructure and economic sensitivity. The program highlights the many things that REALTORS® do in their own communities to improve the quality of life for everyone.

Our public relations committee met this month to look at what we can do as an association to recognize not only what REALTORS® do to improve the quality of life in Stephens County but also recognize and honor a member of our community each month who has committed their life in doing so.

May 11th - DAR Membership Meeting and Flower Auction 11:30 a.m. at Marlow Opera House will be our next meeting as a whole. I am asking all to attend and bring live plants and check books. This will be our next opportunity to help make a difference in people's lives. All proceeds will go to the new youth shelter.

Building Relationally,

Jerry Shaffer

President

Duncan Association of REALTORS®
